■ Introduction of Exhibited Models

Our company, which has mastered vertical multi-process grinding machines, will exhibit two models: one is a general-purpose type equipped with advanced technology and other one is a high-rigidity, high-output type. Please take this opportunity to look.

CNC Multi-Process Grinding Machine
Vertical Mate 85 2nd Generation
(speedMASTER, ERGOline X installed Model)

CNC Multi-Process Grinding Machine
CVG-6 with MATRIS
(ERGOline X installed Model)

For details, please contact the Sales Department of the head office or each sales office.
